DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to independent claims 1, 10, and 19, the prior art references either alone or in combination fail to disclose, teach, or suggest a suspension system for a vehicle particularly comprising: a control arm; a torsion spring assembly having a torsion tube and a torsion bar disposed within the torsion tube, wherein a first end portion of the torsion bar is attached to a first end portion of the torsion tube, wherein a second end portion of the torsion bar extends beyond a second end of the torsion tube and is attached to the control arm, and wherein no portion of the torsion tube is immobilized with respect to the frame; and a moment bar having a first end portion attached to the torsion tube and having a second end portion attachable to the frame. These structures in combination with other structures as recited in claims 1, 10, and 19 define over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
